The purpose of this day is to highlight completed and in-progress improvements in practice, quality management, patient education, staff education activities and research in which the UIHC Department of Nursing Services and Patient Care staff are participating. These projects will be shared through poster/audiovisual presentations.

Topics of interest may include:

- Improving practice
- Education program(s) for patient use
- Quality management projects leading to improvement in care or organizational performance
- Evidence-based practice project(s) to improve care
- A new innovation or practice change
- Conduct of research on clinical, administrative and/or educational topics
- Staff education project(s)/program(s)
- Developed audiovisual materials

Deadline: March 16, 2012
Participants will be notified of acceptance by March 30, 2012
