Meet Rosa. It’s been more than two weeks since she’s received the second dose of the Moderna COVID-19 vaccine.

Rosa, a UI Health Care employee, continues to wear her face mask and practice social distancing when caring for patients, and in areas where patients may be present.

Rosa follows federal, state, and local guidelines and wears a mask when required like on campus or when in certain businesses. She stays home and gets herself tested for COVID-19 if she begins to feel ill.

Rosa can return to doing most activities she did prior to the pandemic without wearing a mask or social distancing.
