

Face masks are optional in non-patient care locations*

You may want to wear a mask if:

You haven't been vaccinated against COVID-19

You have an underlying medical condition or are an older adult

Your close contacts are more likely to get very sick if they contract COVID-19

You have not had COVID-19 in the last 90 days

* A facility or building where neither direct patient care nor high-level disinfection or sterilization related to patient care occurs

Medical-grade face masks are required in patient care locations*

Except in a private office or when eating/drinking

* A facility or building where direct patient care or high-level disinfection or sterilization related to patient care occurs
