

Using Tracers Mobile App

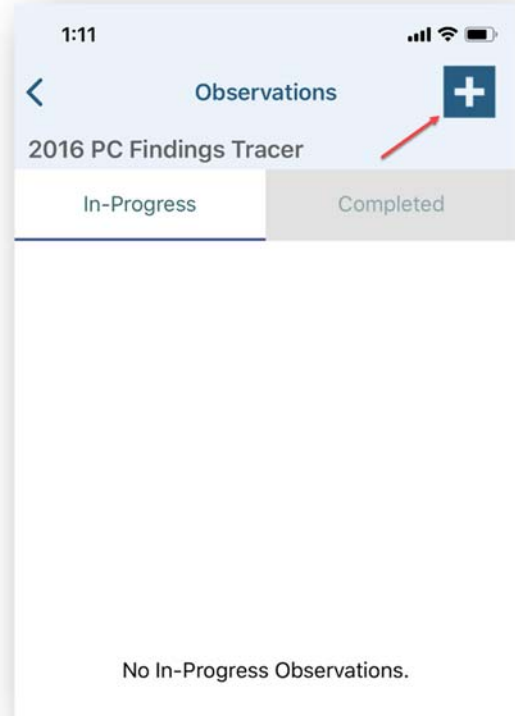

1. Open the Tracers Mobile App and login.

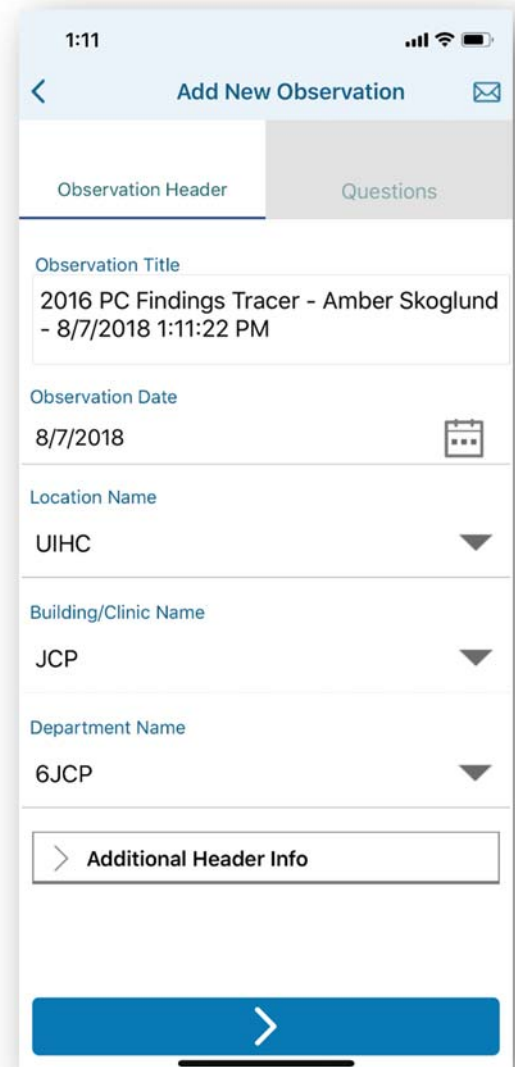

2. Select the Tracer you wish to Observe. If you wish to find a specific tracer, click on the magnifying glass to search.

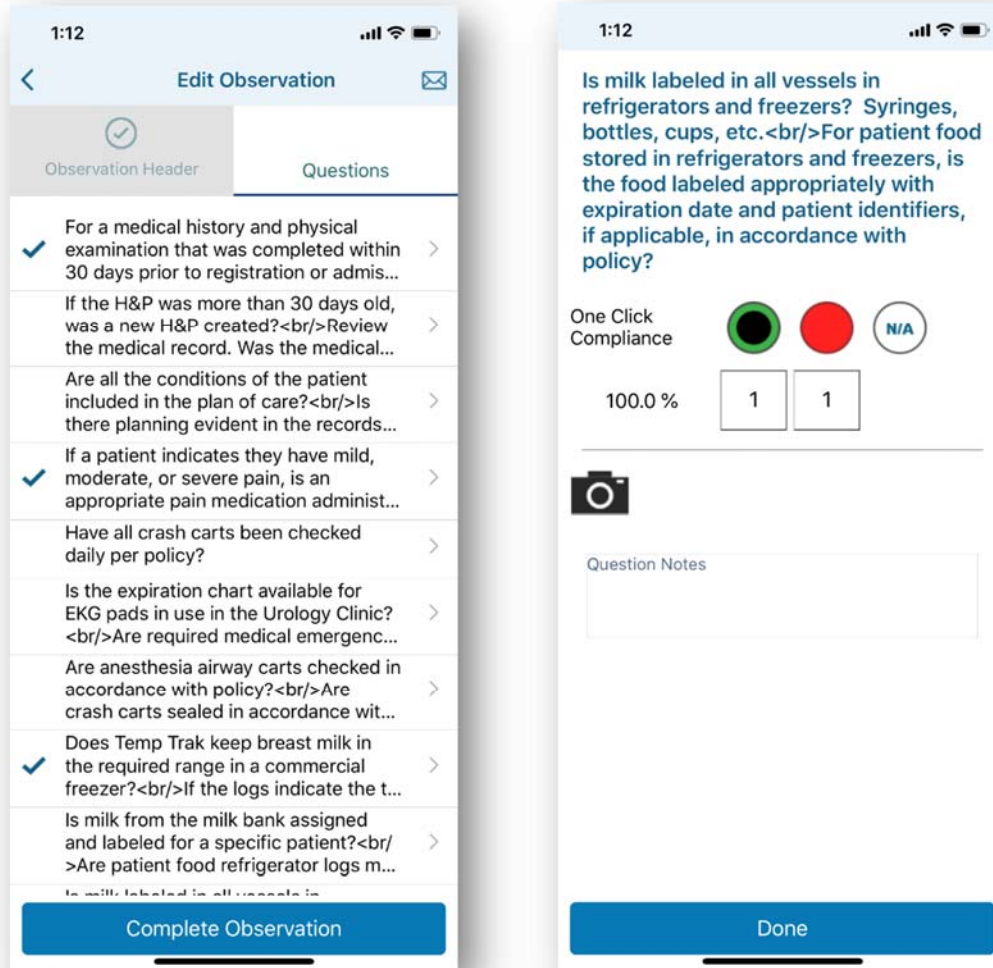

- If you wish to work on an in-progress Tracer, select it, otherwise choose the blue plus  to create a new observation

- Enter the correct Observation Date, Location Name, Building/Clinic Name and Department Name. Tap on the Blue Arrow at the bottom of the screen to advance.

- Select each question, complete the observation, and click “Done”. As each question is completed, a checkmark will show next to it. Once the observation is complete, tap on “Complete Observation” at the bottom.

- Note that any questions not answered will automatically marked as “Not Applicable”
